Re: Town Path
4/25/2012

Our common objective is to see the town path come to fruition as an asset for the town.

Clearly, we wouldn't have the path if not for the initiative of Beverly Klitsch. If we were to name the path for someone, she would be a logical choice. However, Beverly didn't pursue the idea of the path for recognition. She wanted the path to bring the town together geographically and to enhance the town's sense of community. The last thing she would have wanted is for the naming of the path to cause dissension among the town's residents.

As several people have recently expressed, the naming of physical elements in the town for individuals runs counter to our sense of community. Consequently, we withdraw our request to name the path after Beverly. With your support, we will continue our efforts to make the path a reality.

Thank you,
Peter Stevens
